

Primary Care Physicians Needed for Medical Reviews

VHQC is a healthcare consulting firm and the federally designated Quality Improvement Organization for Virginia. For 25 years, we have been leading the way to better healthcare for providers and other clients by offering expertise in quality improvement, utilization management and analytic services that support improved patient outcomes – and often, cost savings.

Authorized by Medicare to provide services dedicated to improving the quality of healthcare for Medicare beneficiaries, VHQC is seeking board certified, actively practicing primary care physicians to perform medical record reviews.

This is an opportunity to perform individual case review, on-site at VHQC offices in Richmond, Virginia to help improve the quality of care for consumers. Schedule is flexible. Commitment of 6-8 hours per week and experience in medical review and quality improvement desirable.

If interested in this unique opportunity, please send a current resume to hr@vhqc.org.
